### DUCK / RABBIT PRODUCTION SILK

A new and different production silk, with a novel touch of Magic. The performer reaches into his empty hat, and says he will produce a rabbit. But he only produces a silk, which when opened displays a Duck, and not a rabbit. Surprised, the performer folds the silk, and when he opens it again, the picture of the duck has changed to a rabbit ! The change is magical, you just fold the silk in half, and open it again, and it has turned to show the Rabbit, even if your audience realizes it is the same picture, turned around ! Produced on super grade silk, approx 21" square, with art work specially done by Tony Dunn, Art director of the famous Linking Ring Magazine, this is a production silk that has the extra touch of magic, that your audience will remember, long after they have forgotten all the other flowers and silks and baubles. Use it from any production prop.

### Frankenstein Silks - (Set of 8)

This effect is based on the all time classic novel of Frankenstein written way back in 1818 by Mary Shelley. In this effect you try to recreate the Frankenstein monster using your magic, but there is a twist to this. You point out to each of the parts of the Frankenstein body for a total of six parts, and place them in a laboratory to try and recreate Frankenstein. On your first attempt you end up with a mis-made Frankenstein, but with some help from the audience you are able to make it right.

This effect comes with a total of eight silks. You can milk this effect for a good 7-8 minutes, and the audience will love your story and every move of yours. This one packs small and plays big.

The graphics on this effect are animated and very kid friendly, and the colors are bright and vibrant. This sets the stage for a great comedy effect.
