Constant Fooling Volume 2 by David Regal (Excellent Condition)

NEW CONDITION.

Constant Fooling Volume 2 by David Regal The second part of Constant Fooling, contains an assortment of unique card magic utilizing prepared or altered cards, mental mysteries, a chapter dedicated to exceptional card effects which utilize a technological breakthrough, bills and currency, gaffed decks and a standout card routine which tells a story. Continue fooling your audiences with the following: A spectator freely deals down to a "Lucky Card" . . . that happens to match the card in the magician's wallet. The deck is tossed onto a small but lethal mousetrap which snaps shut—trapping the selection as cards scatter. A late psychic's scrap of paper predicts the actions of a spectator. A freely-selected card rises from a deck, using a gimmick you can make in one minute. Spectators randomly deal the deck into piles, perfectly separating the four suits in the process. Fifty-one cards are eliminated in the fairest possible manner from an examined deck, leaving a single card that matches a prediction. Mr. Regal's favorite platform item. A signed playing card changes places with a pocketed Joker—with clean hands and no palming. A signed card rises to the top of a deck that is tied with string. The deck can then be used for further miracles. A borrowed bill cleanly changes into a hundred dollar bill, via a new method that doesn't utilize a thumb tip. A story of life "after hours" is told with a deck of cards. A showpiece guaranteed to garner applause. Pages 239, Hardbound with full color dustjacket.
