\$ 1.95

Colored Smoke Cartridges (Choice of Colors)

Easy to use; convenient to store; and affordably priced. Cartridges burn for 3 minutes. 5 per box. When ignited, the powder in these cartridges produce clouds of colored smoke with no flame. Completely non-explosive - safe for handheld devices designed specifically for its use. Our new White & Colored Smoke Cartridges provide several new options for you to execute your smoke effects:

Place the cartridge on a level non-flammable surface and light the end with a match or lighter. (Aluminum pot pie pans or glass ashtrays work great!)

Will burn under water and can be used indoors.

Our new smoke cartridges are great for stage productions, parades, concerts and sporting events and come in a handy storage case for safe-keeping.

Specifications Use caution as the cartridges/powder burns hot, and the colors will stain objects that are directly next to the stream of smoke. Use White if staining is a concern.

;

\$ 49.95
